lindy hop

A Lindy Hop a charleston [1] és breakaway kombinációjából, az 1920-as évek végén kialakult, néhány évtizedig divatos tánc. Tekinthető koreografált swing [2]nek, illetve a Jitterbug [3] variációjának.
(Nevét Charles Lindbergh-ről, az Atlanti Óceánt 1927-ben átrepülő pilótáról kapta.)

Tamás megjegyzései: Lindy Hop From Wikipedia, the free encyclopedia Dancing the Lindy Hop at the Sacramento Jazz Jubilee, Sacramento, California, USA (2006)The Lindy Hop is an African American dance, based on the popular Charleston and named for Charles Lindbergh's Atlantic crossing in 1927. It evolved in New York City in the 1920s and '30s and originally evolved with the jazz music of that time. Lindy was a fusion of many dances that preceded it or were popular during its development but is mainly based on jazz, tap, breakaway and Charleston. It is frequently described as a jazz dance and is a member of the swing dance family. In its development, the Lindy Hop combined elements of both partnered and solo dancing by using the movements and improvisation of black dances along with the formal eight-count structure of European partner dances. This is most clearly illustrated in the Lindy's basic step, the swingout. In this step's open position, each dancer is generally connected hand-to-hand; in its closed position, men and women are connected as though in an embrace. Revived in the 1980s by American, Swedish, and British dancers, the Lindy Hop is now represented by dancers and loosely affiliated grass roots organizations found in North America, South America, Europe, Asia, and Oceania.
